

## Visit

78 DERNGATE (Charles Rennie Mackintosh House Design)

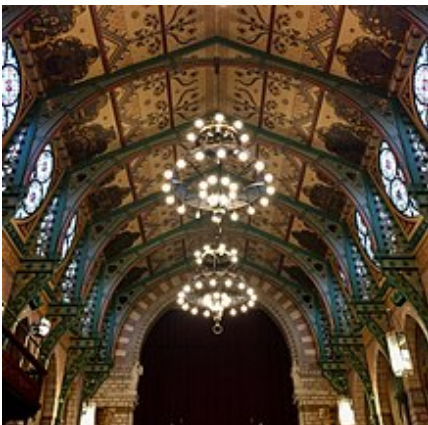

And

NORTHAMPTON GUILDHALL

Thursday, April 9, 2020

Originally built around 1820, this modest terrace house was renovated in 1917 and remains Mackintosh's only significant work in England. Our guided tour will include the house and small garden commissioned by W.J.Bassett-Lowke. The décor, furniture and textiles are Mackintosh's original bold designs. The building includes a display of Bassett-Lowke's business endeavors, including his model railroad business.

After our catered lunch which we will eat together in the second floor gallery space, we will tour the remarkable Northampton Guildhall, one of the more remarkable civic buildings in England. Our tour of this 1864 Victorian Gothic building will include the Great Hall with its magnificent ceiling, stained glass and murals, the sculptured tableaux in the entrance hall and the 14 window statues and sculptured scenes.
